PROFILE

Filipino architect, 3D visualizer, creative designer, illustrator, and multimedia designer with 6+ years of experience across architectural design, space planning, 3D visualization, graphic design, and multimedia content. Co-founder of HACARA+ Architects, dedicated to creating thoughtful, impactful design solutions that balance creativity, functionality, aesthetics, and technical precision. Combines a strong architectural foundation with visual communication skills to turn ideas, plans, and references into compelling visualizations, presentations, and design solutions.

CORE SKILLS

- **Architectural Design:** Architectural design & detailing, conceptualization, space planning, design development, schematic design, design development, and contract documentation
- **CAD & Documentation:** CAD drafting, technical drawing, architectural documentation, construction-system diagrams
- **3D Modeling & Visualization:** Architectural 3D modeling, photorealistic rendering, architectural animation & presentation
- **Architectural Interior Design:** Interior space planning, interior visualization, concept development, functional & aesthetic design solutions
- **Graphic Design & Illustration:** Graphic design, manual & digital illustration, graphic layout, logo design, and public material design
- **Multimedia & Content:** Video editing, content creation & production, social media content, photography, live streaming, stream engineering
- **Project Coordination:** Project coordination, client collaboration, design brief development, design research & presentation, site visits, and quality monitoring

EXPERIENCE

Freelance Architect | HACARA+ Architects – Bataan, PH

2021 – Present

- Provide architectural design services, 3D visualization, space planning, and conceptualization for residential and architectural interior projects.
- Co-founded and help run the practice.

Architectural Designer | Raynor Redeveloped LLC – Portland OR

April 2025 – June 2026

- Independently developed schematic designs, 3D models, and photorealistic visualizations for residential renovation projects from reference photos and dimensions.

Architect | Creative Designer | Eichholtz Long Island – New York

July 2024 – February 2025

- Created 3D visualizations and presentation materials for luxury residential and commercial interior design projects.
- Developed furniture layouts, mood boards, and design concepts aligned with the Eichholtz brand and client requirements.

Architectural Instructor | Bataan Heroes College – Bataan, PH

August 2024 - February 2026

- Taught Computer-Aided Design (AutoCAD), SketchUp, and other architectural design software for drafting and 3D modeling.
- Delivered lectures on Building Technology and Building Systems Design while guiding students in architectural drafting and design projects.

Architectural Designer & Illustrator | Upwork, Fiver – Remote Work

2019 - 2022

- Delivered 3D visualization, 3D modeling, CAD drafting, and conceptual design for remote clients.
- Worked as an illustrator, producing thumbnails and creative assets for gaming/streaming content creators.

Content Producer & Stream Engineer | When in Manila + Webfunc.site – Remote Work

June 2020 - December 2021

- Produced social media content and managed live stream materials and engineering.
- Designed posters, stream covers, and social media graphics for gaming/esports content.

Architecture Intern / Project Coordinator | Peralta Burgos Design and Construction – Bataan, PH

September 2018 - June 2019

- Served as project coordinator and 3D ArchViz, contributing to contract documentation and architectural design.

Graphic Designer & Illustrator | JSJ Digital Printing – Bataan, PH

January 2015 - October 2021

- Designed T-shirt prints and handled cutter plotter operation.
- Produced graphic design work, 3D sublimation printing, and vinyl sticker installation.
